

# Fed up with forms?

It's *not* your imagination. Over the past decade, *in order to get reimbursed for patient care, your efficiency has been compromised by an avalanche of forms.* ECLIPSE can help put you back in the driver's seat by automating part or all of this tedious process.

Forms can be imported, scanned, or designed from scratch. Create fields on the form and tie them to data (e.g. patient names, addresses, etc.) with simple dropdown lists. Or, create your own fields and we'll store the data as part of the patient's Electronic Health Record. Of course, we already maintain a library of form templates that you can select from.

**Use the Template Designer to create or modify custom multi-page data entry templates to store information.** The WYSIWYG environment provides a full palette of custom controls from arrows to rectangles to sticky notes to data entry fields. Import images or documents created elsewhere. You control colors, fonts, and alignment. *Advanced version only:* Design templates that can display as checkboxes or selection lists for faster, more accurate data entry.

**Import forms that you routinely fill out & add patient information anywhere you want on the form to help ease & automate your paperwork load.** Then, simply print the form! You can partially or fully automate a variety of required forms in this manner.

**Automating standard information (e.g. names, policy #'s, provider PIN's) helps eliminate mistakes that often delay reimbursement.**

**User defined data entry objects (e.g. text fields, check boxes and lists) in your templates can be given names and descriptions. Patient data can be assigned to display in fields by simply making selections from dropdown lists.**

Template Field	Data Type	Field Name	Description/Select Table
PatLastName1	ECLIPSE	Patient->LastName	Patient
PatFirstName1	ECLIPSE	Patient->FirstName	Patient
ProviderNo.1	ECLIPSE	PatientAssignedProvider->PIN1	PatientAssignedProvic
HICN1	User defined		
ProviderFirst1	ECLIPSE	PatientAssignedProvider->FirstN	PatientAssignedProvic
ProviderLast1	ECLIPSE	PatientAssignedProvider->LastN	PatientAssignedProvic
Providersuffix1	ECLIPSE	PatientAssignedProvider->Suffix	PatientAssignedProvic
MedicalRecordNo.1	ECLIPSE	Patient->PatientID	Patient
OnsetDate1	ECLIPSE	PatientCurrentCondition->FirsCon	PatientCurrentConditio
SOCDate1	User defined		
Freq&Duration1	User defined		
ServiceDatefrom1	User defined		
ServiceDateto1	User defined		
ServiceDatecompleted1	User defined		
Checkbx1	User defined		
Checkbx2	User defined
